

Firmware Upgrade Instructions: Upgrading the Hyundai AH-3110 Satellite Receiver.

The Hyundai AH-3110 can be updated using firmware update files and a memory stick.

STEP 1

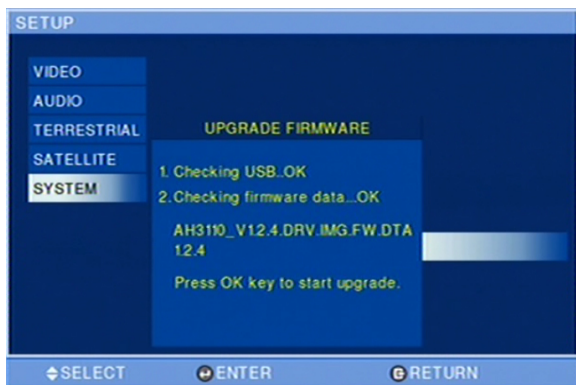

Download the AH3110PVR_*. file and copy it to your FAT32 formatted USB Memory Stick.

STEP 2

Insert the Memory Stick into the Hyundai AH-3110 front panel USB Port.

STEP 3

Press OK to start the upgrade.

STEP 4

Enter the password (Default: 0000). Do not turn the power off until this step is complete and the AH-3110 has been upgraded, the AH-3110 will reboot after the upgrade by itself.
